

## PERSONAL PROPERTY SECURITIES

Our Personal Property Securities (PPS) team works with our clients to provide them with a clear understanding of how the Personal Property Securities Act will affect their business.

Our PPS team is led by Wendy Jacobs, who has been on the consultative committee for the implementation of the PPS legislation from its inception. We take a hands-on approach to training, the regulatory and compliance aspects and product development.

### [The DibbsBarker Approach to the Common Question: How Will PPS Affect My Business?](#)

We use our industry expertise to analyse the current operations of the business and look for any “gaps” between current practice and what the business needs to be ready for PPS. Assisting you to implement those changes will require a tailored program of training, policies, procedures and documents.

### [Training](#)

Our PPS team provides training aimed at all levels of an organisation and tailored to your industry.

We provide training on:

- changes to retention of title, particularly for those business who rely upon retention of title as their primary or only form of ‘security’
- priority arrangements – how to deal with competing claims
- enforcement for secured parties and insolvency practitioners
- leasing and bailment arrangements
- implications for intellectual property

Through our industry knowledge and understanding of the PPS legislation we are able to advise on these areas in a clear and concise manner. Please contact our PPS team members for more information.
